The Sri Subrahmanya temple at Uppinangadi Taluk South Canara District enjoys a cash allowance of Rs. 587-13-0 per annum from the Mysore Govt. for Padikara, Diparadhane and feeding in the temple, besides this, a large amt. of 3 to 4 thousand rupees and sometimes a still larger amt. per year is being spent by the Mysore Govt. for the annual Karakenjeru Shanti-yaga at which Mysore Govt. Officials supervise. A further sum of Rs. 144-12-0 per year is also spent by the Mysore Govt. in the shape of Agama services in the temple. All this shows that the Govt. of Mysore are much interested in the conduct of the services and feeding in this ancient, historic and sacred shrine, which has all along depended upon its supply of rice from the neighbouring Mysore Taluks besides where the devotees of the temple mainly reside. Kind attention is invited to the note of the late Mamlatdar (Mr. G. Ramachandra Rao)

Two applications have been received (1) by the Manager of the Subramanya Temple at Subramanya, and (2) by the Agent of Sri Vedvyasa Samputa Narasimhaswami Mutt at the same place for export from the Saklespur Taluk of food grains required for services at the temple and the Mutt there.

The former ask for permission to export this year 450 pallas of rice or a sufficient quantity of paddy, 30 pallas of ragi and 40 pallas of horse.gram; the latter 120 herus or 300 pallas of paddy, 5 herus or 12½ palla of horse-gram and 12½ pallas of ragi.

The temple enjoys a cash tasdik of Rs.581-13-0 per annum from the Mysore Government for Paditara and othe services in the temple. In addition to this, Government spend nearly 3 to 4 thousand rupees every year fo the Barahazar Santarpane during the car festival. In Government Order No. G. 25986-90/P.P. 66-18. dated 19t May 1919, Government directed that the exports to Subramanya should be restricted to the actual quantities of grains required for the Santarpane. The Manager of the temple subsequently represented through the Residency that the temple being situated in a hilly locality where there is very little cultivation of food crops entirely depended for supply from the villages in the Saklespur Taluk and prayed that the export of the grains

D

NOTE—Contn. sheet.

grains required for the services at the temple may be allowed.

The Food Controller who was consulted opined in his Note No. 7192, dated 1st November 1919, that "as the Government are interested in the temple and its services there need be no objection to the actual quantities of grains required being allowed to be exported from the State, subject to supplies being locally available. Perhaps the Deputy Commissioner of the Hassan District may be consulted." The Deputy Commissioner, Hassan, who was further consulted stated in para 4 of his letter No. 1137, dated 6th November 1919 that the export of the articles may be allowed after the crop of the new harvest comes to market. The petitioner was accordingly informed that his request could not be granted.

The Deputy Commissioner now represents that if permission is not granted the Institution will greatly suffer and that as paddy and ragi have yielded a good harvest, the District requirements will not in any way be affected by the allowing the export of the quantities asked for

As regards the Mutt reference is invited to the Muzrai Superintendent's Note dated 7th May 1919 that " it enjoys two inam villages in the Manjarabad Taluk viz., Hulgari and Halsur endowed for the maintenance of the Mutt and the Mutt depends largely on the income and produce ~~and products~~ of the villages for its maintenance" The Deputy Commissioner recommends also that the grains required by the Mutt may be

be allowed to be exported from these two Inam villages and not from villages referred to by the Agent

The Food Controller who was consulted again states that he has nothing to add to his Note of the 1st November 1919 viz., that there is no objection to the actual quantities required being allowed to be exported subject to supplies being locally available

Sir,

I have the honor to forward herewith application of the Manager of Sri Subramanya Swami Temple of the Uppinangadi Taluk, South Canara District, praying for permission to import from the State 450 pallas of rice, 30 pallas of ragi and 40 pallas of horse gram which are required for use in the Temple at Subramanya.

2. The Manager represents that the Temple is situated in a hilly locality which is thinly populated and in which there is very little cultivation of crops yeilding food grains, that as the Temple has been attracting large number of pilgrims from all parts of India on account of its antiquity and sanctity, large quantities are required for daily services in the temple, in which pilgrims are fed daily throughout the year, and that the supply was being obtained from the adjoining villages in the Manjarabad Taluk from time immemorial.

1/2

17

3. He has produced a copy of "Nirup" issued by Somasekhara Naik of Keladi dynasty to Raghunathia in the year "Pingala" This "Nirup" requires Raghunathia to arrange to supply 2,000'mudis' of rice from the villages of Yeslur Hobli (Manjarabad Taluk) which are near to the temple to be paid for out of its income. He urges that on the strength of this "Nirup" the temple has been for ever so long obtaining its supplies from the Manjarabad Taluk, and that if permission is not given to import the articles, services in the temple will seriously suffer.

This application is supported by the local Officers viz., the Amildar and the Revenue Sub Division Officer, who have inspected the working of the Institution and supervised lately the "Barahazar" Santarpane conducted by the Mysore Government.

4. Considering the above circumstances, Mr. C. Venkata Rao, my predecessor last year allowed 100 'herus' of paddy to be exported from the Manjarabad Taluk, and intimated the same to you in his letter No. 949/F.S. dated 28th April 1919, but Government directed in their Order No. 25986-90/P.P. 66-18-249, dated 19th May 1919, that in future, exports of controlled food grains to Subramanya should be restricted to the quantity required for the annual "Santarpane" in the temple there which is directly managed by the ysore Government Officials. The Manager subsequently put in a Memorial to Government praying for permission to import food grains to Subramanya, but Government gave him an endorsement

endorsement stating that his prayer could not be granted, and forwarded a copy to me with Memo. No. G. 10769-70, dated 13th November 1919

5. The Temple at Subramanya is a very old, famous, and important Muzrari institution and is in receipt of monthly cash grant, and sandal wood from the Mysore Government, and besides the Mysore Government conducts every year "Barahazar" santarpane, costing about Rs 3,000/- to Rs 4,000/- for the use of pilgrims resorting to the temple which is held in great veneration in the Mysore State and Madras Presidency. The annual requirements of the temple are quite independent of the supply of articles taken by our Government Officers for the annual "Barahazar Santarpane" and I am credibly informed that the temple does require the articles mentioned by the Manager for services in the Temple. From the "Nirup" produced by the Manager, and from the reports of local officers, I find that the temple is entirely dependent upon our villages for its annual supply of food grains. I fear that if permission is not granted, the institution will greatly suffer and that pilgrims will be put to serious inconvenience.

6. Paddy and ragi have yeilded a good harvest, and I do not think that by allowing the export of the quantities applied for, the District requirements will in any way be affected, and I would therefore request you to be good enough to obtain the sanction of Government to allow as a special case the transport of food grains asked for by the Manager.

2. The difficulties of getting these articles at Subramanya which have been mentioned in my letter No. F.S. 1512, dated 26th January 1920, are also expreienced by the Mutt, which is an important Muzrai. institution supported and endowed by the Mysore Government.

The matt at Sivarakimanya has got two Inam villages of Heggere and Kalasi. The matt gets Paddy from its lands. The applicant, when asked, as to why he should not use his own paddy for the use of the matt, says that it may be done; but that all the same, permission to take the Paddy to Sivarakimanya is necessary. The pujari says that, if permission to buy in the villages in the Bagadakalli Hobli be granted, there would be saving of the transport charges. This is also true.

The quantity required is 120 Kans (252 ears per Kan) of paddy, 5 Kans of gram & 5 Kans of Ragi.

The gram is required for use during the Car festival of the matt, especially the Rice. The other kinds of grain required

Submitted to the Deputy Commissioner Hassan

The Mutt at Subramanya is mainly maintained by the endowment of two Inam villages in the Manjarabad Taluk & it is but fair & reasonable that the Mutt should be given all facilities to transport the grain required for the daily Naivedya & Sauthapane of the Mutt and for the Cattle & servants. - Names for the Service of the Mutt As

As the cost of transport of these grains direct from the Arsikere villages of the Taluk is said to entail heavy charges, the Agent may be permitted to buy the quantities of grains required in the Byagadahalli Hobli of the Manjarabad Taluk which is near to Subrahmanya than the Arsikere villages & transport the same to Subrahmanya within a reasonable time. The quantities asked for appear quite necessary for the daily services of the Mutt for a year & permission may be kindly accorded to transport the same as the Mutt is practically a Mysore State Institution. Similar permission was given last year.

Letter No. 1512 dated 26th January 1920 from the Deputy Commissioner Hassan District, to the Food Controller and Director of Civil Supplies in Mysore.

I have the honor to forward herewith application of the Manager of Sri Subramanya Swami Temple of the Uppinangadi Taluk, South Canara District, praying for permission to import from the State 450 pallas of rice, 30 pallas of ragi and 40 pallas of horse gram which are required for use in the Temple at Subramanya.

2. The Manager represents that the temple is situated in a hilly locality which is thinly populated and in which there is very litte cultivation of crops yeilding food grains, that as the Temple has been atracting large number of pilgrims from all parts of India an account of its antiquity and sancity, large quantities are required for daily services in the temple, in which pilgrims are fed daily throughout the year, and that the supply was being obtained from the adjoining villages in the Manjarabad Taluk from time immemorial.

3. He has produced a copy of " Nirup" issued by Somasekhara Naik of Keladi dynasty to Raghunathia in the year" Pingala " This "Nirup" requires Raghunathia to arrange to supply 2,000 mudis of rice from the villages of Yeslur Hobli(Manjarabad Taluk) which are near to the Temple to be paid for out of its income. He urges that on the strength of this "Nirup" the temple has been for ever so long obtaining its supplies from the Manjarabad Taluk, and that if permissinn is not given to import the articles, services in the temple will ~~he~~ seriously suffer

This application is supported by the local officers viz., the Amildar and the Revenue Sub Division officer, who have inspected inspected the working of the Institution and supervised lately the

40

the " Barahazar " Santarpane conducted by the Mysore Government.

4. Considering the above circumstances, Mr. C. Venkata Rao my predecessor last year allowed 100 herus or paddy to be exported from the Manjarabad Taluk, and intimated the same to you in his letter No. 949/F.S. dated 28th April 1919, but the Government directed in their order No. 25986-90/P.F. 66-18-249 dated 19th May 1919, that in future, exports of controlled food Grains to Subramanya should be restricted to the quantity required for the annual " Santarpane " in the temple there which is directly managed by the Mysore Government Officials. The Manager subsequently put in a Memorial to Government praying for permission to import food grains to Subramanya, but Government gave him an endorsement stating that his prayer could not be granted, and forwarded a copy to me with memo No. G. 10769-70 dated 13th November 1919.

5. The Temple at Subramanya is very old, famous, and important Muzari institution and is in receipt of monthly cash grant, and sandal wood from the Mysore Government, and besides the Mysore Government conducts every year " Barahazar " santarpane, costing about Rs 3,000/- to Rs 4,000/- for the use of pilgrims restoring to the temple which is held in great veneration in the Mysore State and Madras Presidency. The annual requirements of the Temple are quite independent or the supply of articles taken by our Government officers for the annual " Barahazar " Santarpane, and I am credibly informed that the temple does require the articles mentioned by the Manager for services in the Temple. From the "Nirup" produced by the Manager, and from the reports of the local officers, I find that the temple is entirely dependent upon our villages for its annual supply of food grains. I fear that if permission is not granted, the institution will greatly suffer and that pilgrims will be put to serious inconvenience.

6. Paddy and ragi have yielded a good harvest, and I do not think that by allowing the export of the quantities applied for, the District requirements will in any way, affected, and I would therefore request you to be good enough to obtain the sanction of Government to allow as a special case the ~~trans~~ transport of food grains asked for by the manager.
